

ASTA/NJ Chamber Music Institute at Kean University

*Proudly Announces that Master Educator, Private Studio Teacher,
ASTA/NJ Cadet Teacher Training Program Chair Leslie Webster will
present a workshop during CMI 2010 Sessions I & II:
When Students Become Teachers: Some Explorations*

Workshop Description:

In this session we will experience the crossing over of the interface between students and teachers, an interface that is more porous than is typically thought. We will mine the rich vocabulary of communication styles that take place between teacher and student, and last, but not least, we will look at how students can set up a teaching studio of their own, drawing upon the rich rewards of helping others as well as earning real money. This session is appropriate for those who are already teaching as well as those who haven't tried teaching. Please bring a pencil, some paper, and your instrument.
